Summary

Mobile developer with hands-on experience shipping a full-scale, production-grade Flutter application – covering real-time communication, cloud backend integration, CI/CD, and a substantial automated test suite – plus supporting native Android (Kotlin) work.

Featured Mobile Projects

Sambandha – Cross-Platform Dating & Matchmaking App

Flutter, Dart, Firebase, WebRTC

- Built a feature-rich Flutter app (Android & iOS) combining modern dating flows – swiping, video reels – with cultural matchmaking (Kundli/astrological compatibility)
- Integrated peer-to-peer WebRTC audio/video calling and an encrypted real-time chat system
- Implemented geospatial discovery/search, a weighted matching engine, and a safety-focused panic-alert system with live listeners
- Structured the app using an MVVM pattern (dedicated viewmodels/repositories/services layers) across 30+ screens and features
- Wrote and maintained an extensive automated test suite (unit + widget tests) spanning multiple sprints, covering chat, verification, matching, and notifications
- Set up CI/CD with GitHub Actions (`flutter_ci.yml`, `release.yml`) for automated build, lint, and release bundling

Notification Server (Companion Service)

Node.js, Express.js, Firebase Admin SDK

- Built the backend push-notification microservice that powers the Sambandha app's real-time alerts via Firebase Cloud Messaging

Flutter Dashboard Prototype

Flutter, Dart

- Built a Flutter application scaffold with a custom dashboard UI as a foundation for further app development

Technical Skills

- **Mobile:** Flutter, Dart, Kotlin (native Android), MVVM architecture
- **Real-Time & Cloud:** Firebase (Auth, Firestore, Cloud Functions, FCM), WebRTC, geolocation services
- **Testing & CI/CD:** Widget/unit testing, GitHub Actions
- **Backend Integration:** Node.js, Express.js, REST APIs

Certifications

- Diploma in Data Science and Machine Learning – Vrit Technologies

Education

Softwarica College of IT and E-Commerce, Kathmandu
Bachelor's in Computer Science (Artificial Intelligence focus)
